STRANDER

'CRITERION
QUALITY'
NURSERY STOCK

Service . . .

1. Unparalleled Selection of Varieties

We offer one of the most complete selections of general nursery stock to be found on the west coast. Conifers, broad-leaved evergreens shade and flowering trees deciduous shrubs, and fruit trees. A plant for every possible need.

2. Landscape Architect's Services

We have a trained graduate professional Landscape Architect at our sales yard all during the selling season. His recommendations, helpful pointers, and advice are available free of charge to our customers.

We are also prepared to render complete, lucid planting plans for any type installations. Our Landscape Architect is experienced in laying out all types of plantings—from a tiny dooryard to a city division. Contemporary-Northwest style of design a specialty.

3. Landscape Installation Services

We have made arrangements with some of the largest and most reliable northwest landscape construction companies to carry out our planting plans where this service is desired.

4. Free Garden Instruction Handbook with Every Retail Order

Written by our horticulturists exclusively for the Pacific Northwest. Shows the customer how to take care of his shrubs. Fully illustrated, 32 pages.

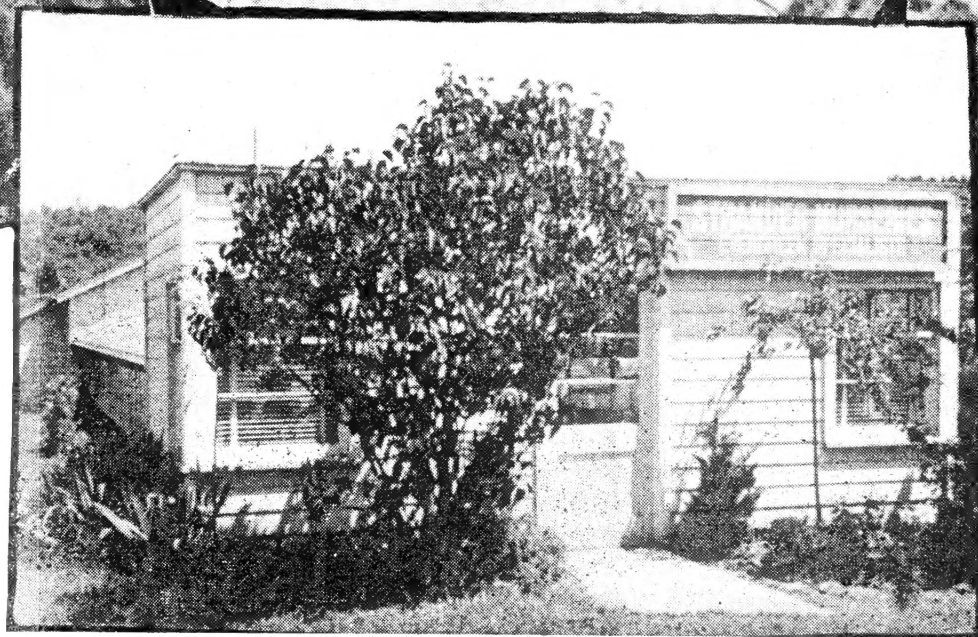

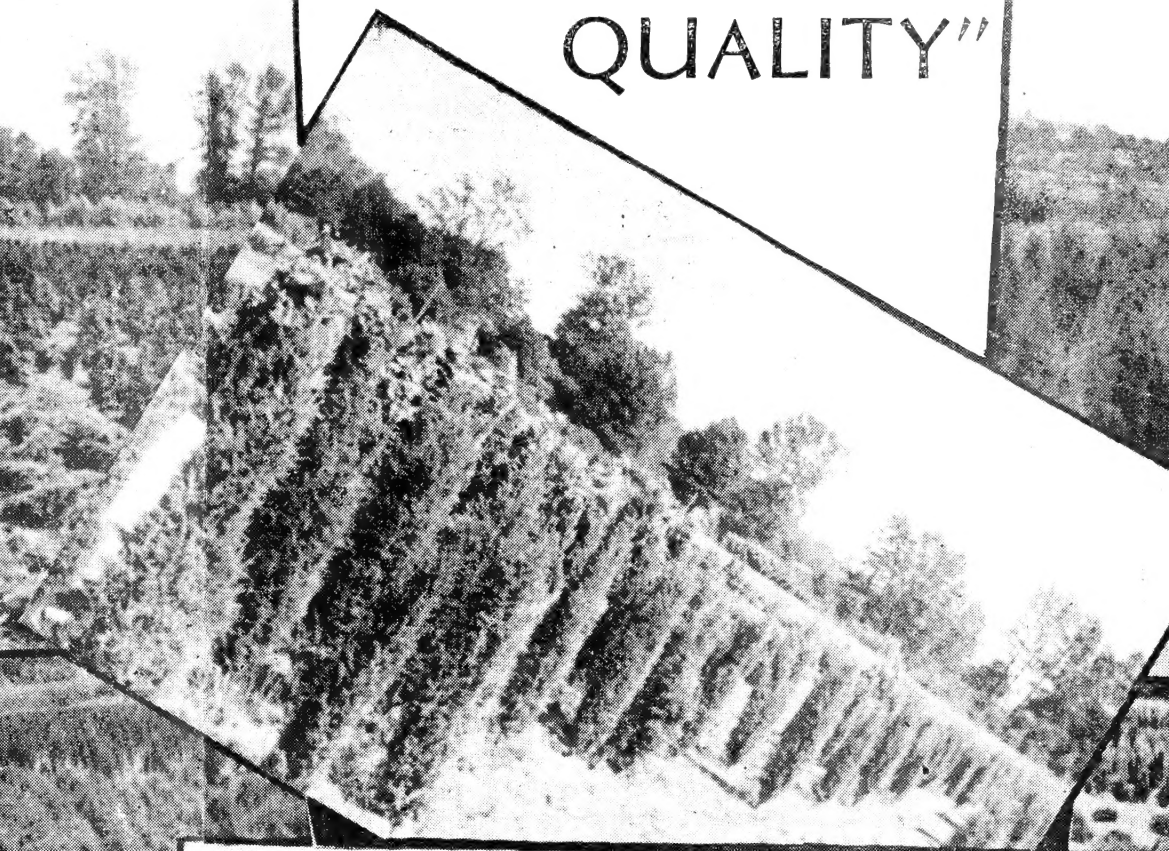

5. Gift Certificates

These American Association of Nurserymen Gift Certificates are honored by more than 1,100 of the leading nurserymen throughout the United States. Give a living gift, give a gift of beauty, give plants.

6. Free Delivery Service

All orders for \$25.00 or more will be delivered free of charge, in our own trucks, to any address within a radius of 15 miles from the nursery. (Approximately from the north City Limits of Seattle to the Pierce County line.) Larger orders will be delivered a greater distance, please inquire.

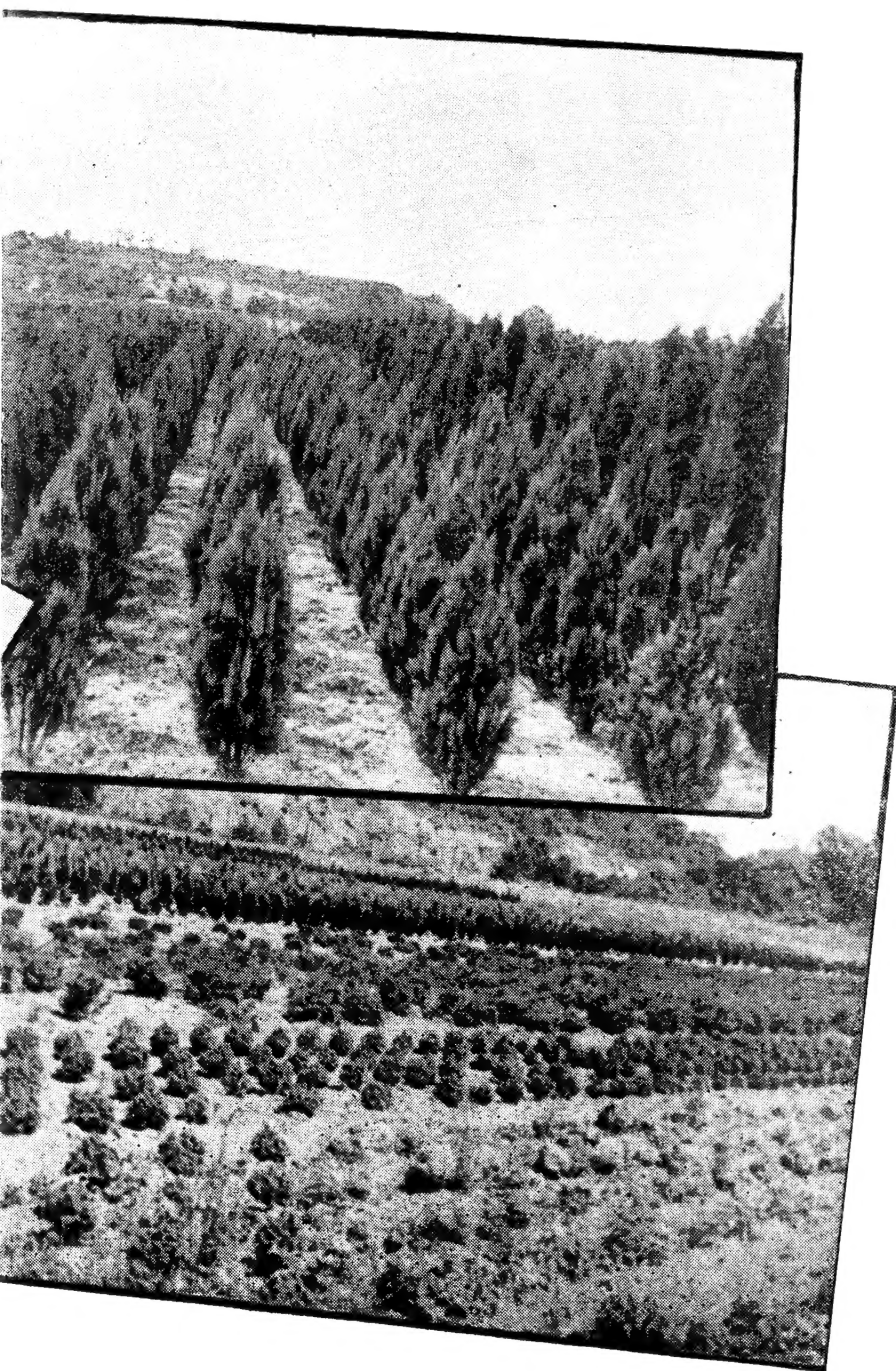

"CRITERION
QUALITY"

OVER 100 NEW VARIETIES EVERY YEAR

It has been the policy of Strander Evergreen Nurseries to constantly search the world for new, worthwhile varieties of plants. We are in constant touch with leading growers, arboretums, and seedsmen in every civilized country on the face of the globe. This policy has enabled us to introduce many of the plants now being used extensively in this region. Every year we grow and test over a hundred new and rare forms of shrubs and trees; the finest the world has to offer.

WANT SOMETHING DIFFERENT? Some of the more unusual "Conversational Pieces" of our large selection of plant materials include such rare items as **Quercus Suber**, **Zizyphus Jujuba**, **Salix Phylicifolia**, and many others. Plants such as these serve to set off fine gardens and patios, adding the distinctive touch of exotic foliage, flowers, and form. Broaden your garden horizons by planting these handsome specimens. Study their habits and enjoy their everlasting beauty.

PHOTOS ABOVE show a few scenes from our growing fields. Here in rich loam soil, under the constant care and inspection of our expert horticulturists, is produced some of the highest quality nursery stock being marketed anywhere in the United States today.

Locally-grown shrubs are always better; they are spared the rigors of shipping, are proven best for our climate. We invite you to visit our nurseries.
